

TECHNICAL SPECIFICATIONS

Type:	knitted
Fiber:	nylon/spandeks
Coating:	nitrile micro-foam
Cuff style:	elastic knitwrist
Weight:	light
Colour:	grey, black
Size:	6, 7, 8, 9,10,11

DESCRIPTION

Knitted, seamless gloves, finished with elastic knitwrist. Coated with nitrile microfoam. Thin, but very durable. Gloves are very lightweight, comfortable and stretchy, perfectly fitted to hand. Gloves provide good feeling of held object, precision and excellent performance of air permeability. Made of softnylon, incredibly comfortable for hand. Good resistance to abrasion and tear. Liner contains Actifresh by Sanitized, providing continuous antimicrobial protection. Heat resistant up to 100°C (EN407).

APPLICATIONS

Any work requiring high precision and dexterity. Work in a dry environment. General mechanical works, glass industry, automotive, electrical.

European Directive: 89/686/CEE
N388 Protective gloves against mechanical risk
EN407 Protective gloves against thermal risk

EN Test Data:	
Abrasion resistance	4
Blade cut resistance	1
Tear resistance	3
Puncture resistance	1
