### DESCRIPTION

Protective gloves reinforced with grain leather. Finished with a very long elastic welt, they protect the wrist and fit perfectly to the hand. Made of selected natural leather and high-quality cotton, they provide the hands with breathability, which significantly increases the comfort of work. Thanks to the appropriate leather treatment (soft and velvety inside, smooth outside), they guarantee work ergonomics and hand protection also in demanding conditions. Leather-covered thumb and additional stitching on fingers increase hand protection, durability and extend the life of the glove.
