

# VISTA GUARD

## TECHNICAL DATAS

Type:	safety glasses
Optical class:	1
Material:	polycarbonate
Weight:	light
Colour:	colorless

THEY ADHERE PERFECTLY TO THE FACE

IMPERMEABLE

DO NOT CAUSE HEAD PRESSURE

## DESCRIPTION

Protective goggles with rounded lenses and integrated side shields. Extremely lightweight, perfectly fitted, they guarantee the highest comfort of use. Thanks to the foam filling the space between the glasses and the wearer's face, they provide excellent tightness and additional protection against injuries.

- Excellent fit
- Comfort of use
- Highest possible UV protection (99.9%)
- Low energy impact resistance

### NORMS:

EU 2016/425  
 EN166:2001 Personal eye protection against multiple hazards (1, 1FT, KN)  
 EN170:2002 Personal eye protection Ultraviolet filters (UV 2C-1.2)

F - Low energy impact resistance  
 T - If protection is required in extreme temperature conditions T - If extreme temperature protection is required, select goggles with a T after the impact resistance designation.  
 1 - Optical class (1 = high, 3 = low)  
 K - Resistance to surface damage by fine particles  
 N - Resistance to condensation (fogging)
