

## sensiCUT D

### TECHNICAL SPECIFICATION

Type:	knitted
Material:	cut-resistant bers
Coating:	nitrile
Cu style:	elastic
Weight:	light
Colour:	blue, black
Sizes:	6, 7, 8, 9, 10, 11, 12

### DESCRIPTION

Ultra-durable knitted gloves with high cut resistance (level D). Comfortable and lightweight (18 gauge) for a perfect fit. With their excellent air permeability parameters, they ensure breathability and ultimate comfort. Their ergonomic shape reduces hand fatigue and the nitrile coating guarantees maximum grip in wet, dry and oily environments. An additional coating between the index finger and thumb significantly increases the durability of the gloves. Thanks to the integrated Sanitized® hygiene function, they are protected against bacterial growth and unpleasant odours are reduced. This model is compatible with touchscreens.

### APPLICATIONS

All work requiring precision and high manual efficiency, including: precision machines, mechanical assembly, workshops engineering, as well as the automotive industry, agriculture and construction.
