

thermoACTIVE2SD

TECHNICAL SPECIFICATION

Material: sleeves made of anti-shear material (level E according to ISO 13997 TDM), front and back with Coolmax Ecomade Fresh

Colour: grey, yellow

Size: S, M, L, XL, XXL

PROPERTIES

Sweatshirt with sleeves made of material with very high cut resistance - level E according to ISO 13997 TDM. The material is extremely soft, flexible and pleasant to the touch compared to other anti-cut fabrics available on the market, guaranteeing protection and the highest level of comfort. The front and back of the sweatshirt made from COOLMAX® EcoMadeFresh fabric, derived from 100% recycled plastic bottles. The system created by Coolmax fibres wicks sweat away from the wearer's skin to the outer layer of the fabric, where it evaporates faster than from any other material. The silver ions embedded in the Coolmax fibres reduce bacterial activity by 99%, so that the wearer avoids unpleasant clothing odours even after a long day's work.

It is possible to design sweatshirts to meet individual needs /number and placement of elements protecting against cutting, HI-VI elements, elements made of fabric ensuring ventilation and breathability/.

APPLICATION

Ceramic and glassworks, automotive industry, all kind of works with sharp-edged objects.

max 50 washing 60°C

EN ISO 13688:2013

EN 388:2016+A1:2018

2XXIE

Cut-resistant material parameters:

Abrasion resistance	2
Cut resistance	X
Tear resistance	X
Puncture resistance	1
Resistance to cuts with sharp objects (TDM EN ISO 13997) (A to F)	E

PPE Regulation (EU) 2016/425 | EN 388:2016+A1:2018
