TECHNICAL DATAS

Type:	safety shoes
Material:	advanced breathable textile
Properties:	anti-puncture insert, toe cap
Standard:	EN ISO 20345:2022, category S1 PL FO SR
Sizes:	35-49

DESCRIPTION

Ultra-lightweight, breathable safety shoes made from ergonomically adaptive, OEKO-TEX® certified fabric. The upper adjusts to the foot, offering all-day comfort and ventilation. Water-repellent and air-permeable – protects against moisture while allowing airflow and effective sweat management to keep feet dry and hygienic. Resistant to puncture, impact, and abrasion. Reinforced toe area with PU overlay for added durability in high-wear zones. Ideal for professionals who need reliable protection without compromising on comfort or breathability. ESD safety footwear.

Sizes: 35-49
Weight: 430 g (single shoe, size 41)
Toe Cap: Composite
Midsole: Kevlar
