

# ACTIVO PLUS

## TECHNICAL SPECIFICATION

<b>Type:</b>	safety sandals
<b>Properties:</b>	composite toe cap, kevlar penetra on-resistant midsole
<b>Additional properties:</b>	ESD
<b>Standard:</b>	EN ISO 20345:2022 S1 PL FO SR
<b>Sizes:</b>	35-48

## PROPERTIES

Protective sandals made of durable, tear-resistant suede microfibre. Fastened with hook-and-loop straps, featuring perforations and a breathable lining to ensure excellent ventilation and comfort during prolonged use. Equipped with a composite toe cap and a non-metallic anti-penetration midsole providing protection against perforation up to 1100 N, without increasing the weight of the footwear. The outsole offers resistance to oils (FO), a high level of slip resistance, as well as resistance to short-term contact with temperatures up to 180°C and to chemical agents such as 10% sulfuric acid and a 5% sodium hydroxide solution. Designed for industrial, warehouse, and production environments, these sandals are suitable wherever foot protection is required while maintaining good ventilation. Available in an ESD version.

**Sizes:** 35-48

**Toe cap:** Composite

**Midsole:** Kevlar penetration-resistant midsole

**Construction method:** Injection-moulded construction

**Footwear height:** 13 cm

**Footwear weight:** 1.0 kg
